Measure #	Measure CPT	Measure Type	Measure Description and Documentation Requirements	Modifiers for NOT performing	Eligible CPTs	Eligible ICDs	Descriptions of Eligible ICDs (or CPTs for prodedure measures)	
12	<u>2027F</u>	<u>Patient</u>	Optic Nerve Documentation Requires documentation of: Optic nerve head evaluation within 12 months	1P (medical) 3P (system) 8P (unspecified)	92002 92004 92012 92014 99201-5 99212-5 99241-5	365.01 365.10 365.11 365.12 365.15	Open angle with borderline findings Open angle glaucoma, unspecified Primary Open angle glaucoma Low tension glaucoma Residual stage of open angle glaucoma	
14	<u>2019F</u>	<u>Patient</u>	ARMD Dilated Exam Requires documentation of: dilated exam AND presence or absence of macular thickening or hemorrhage AND level of macular degeneration severity within 12 months	1P (medical) 2P (patient) 3P (system) 8P (unspecified)	92002 92004 92012 92014 99201-5 99323-5 99241-5	362.50 362.51 362.52	Macular degeneration (senile), unspecified Nonexudative age related macular degeneration Exudative age related macular degeneration	
18	<u>2021F</u>	<u>Patient</u>	DR: Dilated Fundus Exam Requires documentation of: Severity of retinopathy (defined as "background, proliferative, or nonproliferative) AND documentation of whether macular edema present	1P (medical) 2P (patient) 3P (system) 8P (unspecified)	92002 92004 92012 92014 99201-5 99212-5 99241-5	362.01 362.02 362.03 362.04 362.05 362.06	Background diabetic retinopathy Proliferative diabetic retinopathy Nonproliferative diabetic retinopathy NOS Mild nonproliferative diabetic retinopathy Moderate nonproliferative diabetic retinopathy Severe nonporoliferative diabetic retinopathy	
19	<u>5010F</u> and <u>G8397</u>	<u>Patient</u>	DR: Communication with PCP Requires 2021F in addition to documentation of communication G-8397 – Dilated exam performed and macular edema and retinopathy described	2P (patient) 3P (system) 8P (unspecified)	92002 92004 92012 92014 99201-5 99212-5 99241-5	362.01 362.02 362.03 362.04 362.05 362.06	Background diabetic retinopathy Proliferative diabetic retinopathy Nonproliferative diabetic retinopathy NOS Mild nonproliferative diabetic retinopathy Moderate nonproliferative diabetic retinopathy Severe nonporoliferative diabetic retinopathy	
117	<u>2022F</u>	<u>Patient</u>	DM: Dilated Exam Requires documentation of: Dilated eye exam in patient with diabetes mellitus within 12 months	8P (unspecified)	92002 92004 92012 92014 99201-5 99212-15 99217-20 99241-5 99455-6	DM I 250.01 250.02 250.03 250.10 250.11 250.12 250.13 250.20 250.21 250.22 250.23 250.30 250.31 230.33 250.41 250.43 250.44 250.51 250.53 250.61 250.63 250.71 250.73 250.81 250.83 250.91 250.93	DM II 250.00 250.02 250.10 250.12 250.20 250.22 250.30 250.32 250.40 250.42 250.50 250.52 250.60 250.62 250.70 250.72 250.80 250.82 250.90 250.92	Without complications Without complications, uncontrolled With ketoacidosis With ketoacidosis, uncontrolled With hyperosmolarity With hyperosmolarity, uncontrolled With coma With coma, uncontrolled With renal manifestations With renal manifestations, uncontrolled With ophthal manifestations With ophthal manifestations, uncontrolled With neuro manifestations With neuro manifestations, uncontrolled With periph circ manifestations With periph circ manifestations, uncontrolled With other manifestations With other manifestations, uncontrolled With unspecified complication

117	2022F	<u>Patient</u>	DM: Dilated Exam Requires documentation of: Dilated eye exam in patient with diabetes mellitus within 12 months	8P (unspecified)	92002 92004 92012 92014 99201-5 99217-20 99241-5 99455-6	357.2 352.01 362.02 362.03 362.04 362.05 362.06 362.07 366.41 648.00 648.01 648.02 648.03 348.04	Polyneuropathy in diabetes Background diabetic retinopathy Proliferative diabetic retinopathy Nonproliferative diabetic retinopathy Mild nonproliferative diabetic retinopathy Moderate nonproliferative diabetic retinopathy Severe nonproliferative diabetic retinopathy Diabetic macular edema Diabetic cataract DM of pregnancy DM of pregnancy, delivered DM of pregnancy, delivered with post partum comp DM of pregnancy, antepartum DM of pregnancy, postpartum
124	<u>G8447</u>	<u>Patient</u>	Use of Qualified EMR Document encounters with EMR that is either CCHIT certified or that can generate a medication list, and generate a problem list, and enter laboratory tests as discrete searchable data elements	NONE	92002 92004 92012 92014 99201-5 99211-5 99241-5 90801-9 96150-2 97001-4 97750 97802-4 98940-2	ALL	
139	<u>0014F</u>	<u>Surgery</u>	Comprehensive pre-op assessment for cataract surgery/IOL Dilated Fundus, AL, K, IOL power calculation functional or medical indications within 12 months	8P (unspecified)	66982 ^{complex} 66983 ^{ICCE} 66984 ^{ECCE}	NONE	
140	<u>4177F</u>	<u>Patient</u>	Age Related Macular Degeneration counseling on antioxidant supplement within 12 months	3P (system) 8P (unspecified)	92002 92004 92012 92014 99201-5 99212-5 99241-5	362.50 362.51 362.52	ARMD unspecified Non exudative Exudative
141	<u>3284F</u> reduced pressure 15% from pretreatment	<u>Patient</u>	Open Angle Glaucoma POAG IOP reduced 15% or documentation of plan	3P (system) 8P (unspecified)	92002 92004 92012 92014 99201-5 99212-5 99241-5	365.10 365.11 365.12 365.15	Primary Open Angle Glaucoma, unspecified Primary Open Angle Glaucoma Low tension Glaucoma Residual Primary Open Angle Glaucoma
	<u>OR</u> <u>0517F</u> -documentation of plan of care within 12 months <u>PLUS</u> <u>3285E</u> < 15% pressure reduction		365.01 DELETED (glaucoma suspect)
